Institute of Certified Franchise Executives

**Mission:** To enhance the professionalism of franchising by certifying the highest standards of quality training and education.

The only professional development program designed for franchise executives by franchise executives.
What Is Franchising?

Franchising is a business development method for expanding business and distributing goods and services, using an established business system and a recognized brand name.

The franchising business development model is now used in more than 100 countries.
What Is The Franchising Relationship?

A franchise occurs when a business (the Franchisor) licenses its trade name (the Brand) and its operating methods (the System) to a person or group (the Franchisee) who agrees to operate according to the terms of a contract (the Franchise Agreement).
Why Franchise Your Business?

You have developed a good business with excellent systems

You want to expand, but lack the money, the people and the time

It may be time to think about franchising
Is Your Business "Franchisable"?

- **It needs to be credible.** Does your company have experienced management? A track-record over time? Is the concept proven?

- **It needs to be unique.** Is your business adequately differentiated from its competitors? Is it marketable as a business opportunity?

- **Does it have a sustainable competitive advantage?**

- **It needs to be teachable.** Are the systems in place? Are operating procedures documented in manuals?

- **It needs to provide an adequate return.** A business needs to generate a 15 to 20 percent return on investment after deducting a royalty

Why Take Your Franchise Global?

- Tap into the revenue potential of larger markets
- Increase brand value
- Reduce dependence on your domestic market and its economic cycles
- Leverage your existing intellectual property, know-how and technology
- Being global helps franchise sales in your home country by enhancing a brand’s image
Keys To ‘Going Global’ Successfully

International development must be a business growth strategy

Pro-active business plan

Trademarks

Strong training and support

Clear differentiation

Market and competitor research

Adapted from an article by Bill Edwards and Robert Shaw in “Franchise Times”
The US Franchise Market

- The direct and indirect impact of the 910,000 franchise business locations in the USA reached more than US$2.3 trillion in 2005
- 20,000,000 jobs in the US are tied directly or indirectly to franchising
- There are over 3,000 different franchises in over 100 business sectors
- 54¢ of every retail dollar in the USA is spent at a franchise
- Every product and service in the US is provided by a franchise
- The US has well defined franchising laws
- The US market is open to good new concepts from other countries

From the recent PWC ‘Franchising in the US’ IFA study
